### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the closest prior art is to Byrnes et al (US 6610369), which teaches all the features of the claimed invention, as discussed in the Office Action of June 9, 2004 (see paragraph 4). However, Byrnes is only prior art under 35 USC 102(e), and has common inventors with the present application. Applicant has filed an acceptable declaration indicating that the claimed subject matter of the present application that was disclosed but unclaimed in Byrnes was derived from these common inventors, and thus Byrnes is not an invention "by another". As a result, Byrnes is no longer available as a 35 USC 102(e) reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Applicant's amendment and declaration of Dec. 10, 2004 has overcome all the outstanding objections and rejections of the claims. The objection to claim 16 was overcome by the amendment to claim 16 to indicate that one or more of the listed embrittlement-reducing materials can be present. The rejection under 35 USC 102(e) has been overcome by the declaration by inventors L. Byrnes and M. Kramer as discussed in the paragraph above.
